Ian Otieno

Full-stack web designer and developer. On a mission to help 1,000 businesses grow their revenue through scalable, high performance growth engines

Nairobi County, Kenya

Summary

I build fast, clean, and goal-driven websites that help individuals and small businesses stand out online. From portfolios to lead-gen pages, I focus on results — not just code. Currently freelancing full-time and always up for projects that matter. Send me a DM in case you have a project in mind

Experience

Self-employed

Professional Freelancer

January 2025 - Present (6 months)

Nairobi County, Kenya

As a freelance full-stack developer, I help individuals and small businesses bring their online presence to life through modern, responsive web solutions. I specialize in building lead capture pages, personal and professional bio sites, and portfolio-driven websites that are fast, functional, and conversion-focused.

One of my recent projects includes ironfitness(<https://iron-fitness-site.vercel.app/>), a sleek, user-friendly site tailored for a fitness brand looking to grow its online client base and generate leads.

Key skills and tools I work with include:

HTML, CSS, PHP (Laravel coming soon), and responsive design principles

Custom UI design informed by modern UX standards

Strong understanding of conversion strategy and branding fundamentals

I'm passionate about helping clients stand out online while continuously sharpening my technical and creative skills.

Freelance

Full-stack Developer

November 2024 - June 2025 (8 months)

Nairobi County, Kenya

I now create visually stunning, user-friendly, and high-performing websites that help businesses attract and convert their ideal customers. My approach goes beyond aesthetics—I focus on functionality, speed, and user experience to ensure every website I design delivers real business results.

With expertise in UI/UX principles, responsive design, and modern web technologies, I build websites that are not just beautiful but also optimized for engagement, conversions, and growth. Whether it's a landing page, a corporate site, or an e-commerce platform, I craft designs that reflect your brand and drive success.

If you need a website that works as hard as you do, let's connect and bring your vision to life!

Salezy
